## **INFORMATION, AUTHORIZATION, & CONSENT TO TELEMENTAL HEALTH**

Thank you so much for choosing the services that I provide. This document is designed to inform you about what you can expect from me regarding confidentiality, emergencies, and several other details regarding your treatment as it pertains to TeleMental Health. TeleMental Health is defined as follows:

“TeleMental Health means the mode of delivering services via technology-assisted media, such as but not limited to, a telephone, video, internet, a smartphone, tablet, PC desktop system or other electronic means using appropriate encryption technology for electronic health information. TeleMental Health facilitates client self-management and support for clients and includes synchronous interactions and asynchronous store and forward transfers.” (Georgia Code 135-11-.01)

TeleMental Health is a relatively new concept despite the fact that many therapists have been using technology-assisted media for years. Breaches of confidentiality over the past few decades have made it evident that Personal Health Information (PHI) as it relates to technology needs an extra level of protection. Additionally, there are several other factors that need to be considered regarding the delivery of TeleMental Health services in order to provide you with the highest level of care. Therefore, I have completed specialized training in TeleMental Health. I have also developed several policies and protective measures to assure your PHI remains confidential. These are discussed below.

Please initial that you have read this page: \_\_\_\_\_

## The Different Forms of Technology-Assisted Media Explained

### Telephone via Landline:

It is important for you to know that even landline telephones may not be completely secure and confidential. There is a possibility that someone could overhear or even intercept your conversations with special technology. Individuals who have access to your telephone or your telephone bill may be able to determine who you have talked to, who initiated that call, and how long the conversation lasted. If you have a landline and you provided me with that phone number, I may contact you on this line from my cell phone, typically only regarding setting up an appointment if needed. If this is not an acceptable way to contact you, please let me know. Telephone conversations (other than just setting up appointments) are billed at my hourly rate.

### Cell phones:

In addition to landlines, cell phones may not be completely secure or confidential. There is also a possibility that someone could overhear or intercept your conversations. Be aware that individuals who have access to your cell phone or your cell phone bill may be able to see who you have talked to, who initiated that call, how long the conversation was, and where each party was located when that call occurred. However, I realize that most people have and utilize a cell phone. I may also use a cell phone to contact you, typically only regarding setting up an appointment if needed. Telephone conversations (other than just setting up appointments) are billed at my hourly rate. Additionally, I keep your phone number in my cell phone, but it is listed by your initials only and my phone is password protected. If this is a problem, please let me know, and we will discuss our options.

### Text Messaging:

Text messaging is not a secure means of communication and may compromise your confidentiality. However, I realize that many people prefer to text because it is a quick way to convey information. **Nonetheless, please know that it is my policy to utilize this means of communication strictly for appointment confirmations.** Please do not bring up any therapeutic content via text to prevent compromising your confidentiality. You also need to know that I am required to keep a copy or summary of all texts as part of your clinical record that address anything related to therapy.

### Email:

Email is not a secure means of communication and may compromise your confidentiality. However, I realize that many people prefer to email because it is a quick way to convey information. **Nonetheless, please know that it is my policy to utilize this means of communication strictly for appointment confirmations.** Please do not bring up any therapeutic content via email to prevent compromising your confidentiality. You also need to know that I am required to keep a copy or summary of all emails as part of your clinical record that address anything related to therapy. I also strongly suggest that you only communicate through a device that you know is safe and technologically secure (e.g., has a firewall, anti-virus software installed, is password protected, not accessing the internet through a public wireless network, etc.). If you are in a crisis, please do not communicate this to me via email because I may not see it in a timely matter. Instead, please see below under "Emergency Procedures."

### Social Media - Facebook, Twitter, LinkedIn, Instagram, Pinterest, Etc:

It is my policy not to accept "friend" or "connection" requests from any current or former client on my **personal** social networking sites such as Facebook, Twitter, Instagram, Pinterest, etc. because it may compromise your confidentiality and blur the boundaries of our relationship. Please refrain from making contact with me using social media messaging systems such as Facebook Messenger or Twitter. These methods have insufficient security, and I do not watch them closely. I would not want to miss an important message from you.

Please initial that you have read this page: \_\_\_\_\_

**Video Conferencing (VC):**

Video Conferencing is an option for us to conduct remote sessions over the internet where we not only can speak to one another, but we may also see each other on a screen. I utilize Doxy.me. This VC platform is encrypted to the federal standard, HIPAA compatible, and has signed a HIPAA Business Associate Agreement (BAA). The BAA means that Doxy.me is willing to attest to HIPAA compliance and assumes responsibility for keeping our VC interaction secure and confidential. If we choose to utilize this technology, I will give you detailed directions regarding how to log-in securely. I also ask that you please sign on to the platform at least five minutes prior to your session time to ensure we get started promptly. Additionally, you are responsible for initiating the connection with me at the time of your appointment. I strongly suggest that you only communicate through a computer or device that you know is safe (e.g., has a firewall, anti-virus software installed, is password protected, not accessing the internet through a public wireless network, etc.).

**Recommendations to Websites or Applications (Apps):**

During the course of our treatment, I may recommend that you visit certain websites for pertinent information or self-help. I may also recommend certain apps that could be of assistance to you and enhance your treatment. Please be aware that websites and apps may have tracking devices that allow automated software or other entities to know that you've visited these sites or applications. They may even utilize your information to attempt to sell you other products. Additionally, anyone who has access to the device you used to visit these sites/apps, may be able to see that you have been to these sites by viewing the history on your device. Therefore, it is your responsibility to decide if you would like this information as adjunct to your treatment or if you prefer that I do not make these recommendations. Please let me know by checking (or not checking) the appropriate box at the end of this document.

**Electronic Transfer of PHI for Billing Purposes:**

If I am credentialed with and a provider for your insurance, please know that I utilize a billing service who has access to your PHI. Your PHI will be securely transferred electronically to Holt's Services. This billing company has signed a HIPAA Business Associate Agreement (BAA). The BAA ensures that they will maintain the confidentiality of your PHI in a HIPAA compatible secure format using point-to-point, federally approved encryption. Additionally, if your insurance provider is billed, you will generally receive correspondence from your insurance company, my billing company, or both.

**Electronic Transfer of PHI for Certain Credit Card Transactions:**

I utilize PayPal as the company that processes your credit card information. This company may send the credit card-holder a text or an email receipt indicating that you used that credit card for my services, the date you used it, and the amount that was charged. This notification is usually set up two different ways - either upon your request at the time the card is run or automatically. Please know that it is your responsibility to know if you or the credit card-holder has the automatic receipt notification set up in order to maintain your confidentiality if you do not want a receipt sent via text or email. Additionally, please be aware that the transaction will also appear on your credit-card bill. The name on the charge will appear as Darnyl R. Katzinger, Psy.D., Inc.

**Your Responsibilities for Confidentiality & TeleMental Health**

Please communicate only through devices that you know are secure as described above. It is also your responsibility to choose a secure location to interact with technology-assisted media and to be aware that family, friends, employers, co-workers, strangers, and hackers could either overhear your communications or have access to the technology that you are interacting with. Additionally, you agree not to record any TeleMental Health sessions.

Please initial that you have read this page: \_\_\_\_\_

### Communication Response Time

I'm required to make sure that you're aware that I'm located in the Southeast and I abide by Eastern Standard Time. My practice is considered to be an outpatient facility, and I am set up to accommodate individuals who are reasonably safe and resourceful. I do not carry a pager nor am I available at all times. If at any time this does not feel like sufficient support, please inform me, and we can discuss additional resources or transfer your case to a therapist or clinic with 24-hour availability. I will return phone calls, texts, emails, etc. within 24 hours. However, I do not return calls or any form of communication on weekends or holidays. If you are having a mental health emergency and need immediate assistance, please follow the instructions below.

### In Case of an Emergency

If you have a mental health emergency, I encourage you not to wait for communication back from me, but do one or more of the following:

- Call Behavioral Health Link/GCAL: 800-715-4225
- Call Ridgeview Institute at 770.434.4567
- Call Peachford Hospital at 770.454.5589
- Call Lifeline at (800) 273-8255 (National Crisis Line)
- Call 911.
- Go to the emergency room of your choice.

### Emergency Procedures Specific to TeleMental Health Services

There are additional procedures that we need to have in place specific to TeleMental Health services. These are for your safety in case of an emergency and are as follows:

- You understand that if you are having suicidal or homicidal thoughts, experiencing psychotic symptoms, or in a crisis that we cannot solve remotely, I may determine that you need a higher level of care and TeleMental Health services are not appropriate.
- I require an Emergency Contact Person (ECP) who I may contact on your behalf in a life-threatening emergency only. Please write this person's name and contact information below. Either you or I will verify that your ECP is willing and able to go to your location in the event of an emergency. Additionally, if either you, your ECP, or I determine necessary, the ECP agrees to take you to a hospital. Your signature at the end of this document indicates that you understand I will only contact this individual in the extreme circumstances stated above. Please list your ECP here:

Name: \_\_\_\_\_ Phone: \_\_\_\_\_

- You agree to inform me of the address where you are at the beginning of every TeleMental Health session.
- You agree to inform me of the nearest mental health hospital to your primary location that you prefer to go to in the event of a mental health emergency (usually located where you will typically be during a TeleMental Health session). Please list this hospital and contact number here:

Hospital: \_\_\_\_\_ Phone: \_\_\_\_\_

### In Case of Technology Failure

During a TeleMental Health session, we could encounter a technological failure. The most reliable backup plan is to contact one another via telephone. Please make sure you have a phone with you, and I have that phone number.

If we get disconnected from a video conferencing or chat session, end and restart the session. If we are unable to reconnect within ten minutes, please call me.

If we are on a phone session and we get disconnected, please call me back or contact me to schedule another session. If the issue is due to *my* phone service, and we are not able to reconnect, I will not charge you for that session.

Please initial that you have read this page: \_\_\_\_\_

### Structure and Cost of Sessions

Due to the ongoing pandemic, I am currently offering TeleMental Health services exclusively for adolescents and adults. Exceptions may be made to this policy if it is determined that TeleMental Health services will not be sufficient based on an individual's needs. While all initial consultations are being conducted via TeleMental Health, follow-up sessions for children are being offered in person. If appropriate, clients may engage in either in person sessions, TeleMental Health, or both. We will discuss what is best for you. If it is determined that in person sessions are appropriate, you are required to be fully vaccinated. If vaccinations are not possible due to age or medical-based exemptions, masks are required at all times in the building and during sessions. The structure and cost of TeleMental Health sessions are exactly the same as in person sessions described in my general "Information, Authorization, and Consent to Treatment" form. I agree to provide TeleMental Health therapy for the fee of \$175 per 45 minute session and \$190 per 60 minute session, including all initial consultations. Texting and emails (other than just setting up appointments) are billed at my hourly rate for the time I spend reading and responding. You will receive an invoice via PayPal at the conclusion of our contact. **This includes any therapeutic interaction other than setting up appointments.** The receipt of payment & services completed may also be used as a statement for insurance if applicable to you (see below).

Insurance companies have many rules and requirements specific to certain benefit plans. Due to the pandemic, many insurance companies have made exception to cover TeleMental Health services. However, that could change at any time. It is your responsibility to find out your insurance company's policies and to know and understand your coverage, including deductibles and copays. Please also note that you are responsible to pay for any remaining balance due to your insurance's failure to pay for services rendered.

You are also responsible for the cost of any technology you may use at your own location. This includes your computer, cell phone, tablet, internet or phone charges, software, headset, etc.

### Cancellation Policy

In the event that you are unable to keep either a face-to-face appointment or a TeleMental Health appointment, you must notify me at least 24 hours in advance. Clients who do not present for a scheduled appointment within 15 minutes of the appointment time will be considered a no-show. Any cancellation or no show that occurs with less than 24 hours' notice will be subject to a \$100 fee. Please be advised that in order to ensure equitable treatment across all clients there will be no exceptions made to this policy. Please note that insurance companies do not reimburse for missed sessions.

### Limitations of TeleMental Health Therapy Services

Due to the ongoing pandemic, TeleMental Health services have become a necessity. TeleMental Health services have potential benefits including easier access to care, and the convenience of meeting from a location of your choosing, while allowing for social distancing. This is not the same as a direct client/health care provider visit due to the fact that we will not be in the same room together. As such, there are certain limitations that come along with undergoing therapy remotely. Primarily, there is a risk of misunderstanding one another when communication lacks visual or auditory cues. For example, if video quality is lacking for some reason, I might not see a tear in your eye. Or, if audio quality is lacking, I might not hear the crack in your voice that I could easily pick up if you were in my office.

There may also be a disruption to the service (e.g., phone gets cut off or video drops). This can be frustrating and interrupt the normal flow of personal interaction.

Please know that I have the utmost respect and positive regard for you and your well-being. I would never do or say anything intentionally to hurt you in any way, and I strongly encourage you to let me know if something I've done or said has upset you. I invite you to keep our communication open at all times to reduce any possible harm.

Please initial that you have read this page: \_\_\_\_\_

Consent to TeleMental Health Services

Please check the TeleMental Health services you are authorizing me to utilize for your treatment or administrative purposes. Together, we will ultimately determine which modes of communication are best for you. However, you may withdraw your authorization to use any of these services at any time during the course of your treatment just by notifying me in writing. If you do not see an item discussed previously in this document listed for your authorization below, this is because it is built-in to my practice, and I will be utilizing that technology unless otherwise negotiated by you.

- Texting
- Email
- Video Conferencing
- Recommendations to Websites or Apps

In summary, technology is constantly changing, and there are implications to all of the above that we may not realize at this time. Feel free to ask questions, and please know that I am open to any feelings or thoughts you have about these and other modalities of communication and treatment.

Please print, date, and sign your name below indicating that you have read and understand the contents of this form, you agree to these policies, and you are authorizing me to utilize the TeleMental Health methods discussed.
